Practice Guidelines Verification

All students in the Counseling Psychology program are expected to familiarize themselves with and adhere to the current ethical standards as well as the practice guidelines and codes of conduct for psychologists. This form is used to provide verification to the program that our students, who are registered for practice and service learning courses (a) know where to locate, (b) have familiarized themselves with, and (c) are aware of whom to consult regarding the professional psychology practice guidelines.

- APA (approved). Guidelines for Prevention in Psychology.

This form must be signed and returned to the EDPS 61700 course instructor, who will retain it in your official program file.

My signature below indicates that I am familiar with APA's current practice guidelines. I know to ask questions of my program advisor, faculty, or supervisors about any ethical or practice issues or concerns that arise during my tenure in the program.
